*Kenny C. Guinn, Governor*

*Allen Biaggi, Director*

*Leo M. Drozdoff, P.E., Administrator*

## **Notice of Proposed Action Public Notice**

**January 19, 2000**

The Administrator, Division of Environmental Protection, Department of Conservation and Natural Resources, Carson City, Nevada is issuing the following notice of proposed action under the authority of the Nevada Revised Statutes, the Nevada Administrative Code, and the Safe Drinking Water Act.

The Administrator has received an application for an Underground Injection Control (UIC) permit, which has been drafted for public comment. Permit #UNEV2005211 has been applied for by the following applicant:

**Clark County School District (CCSD)  
4828 Pearl Street  
Las Vegas, Nevada 89121**

The applicant has submitted an application for a UIC permit to inject potable water used in a 30-unit evaporative cooler system (condensate water) into a subsurface infiltration system. Injection will occur only during the time of the year when the evaporative coolers will be operating. Approximately half of the maximum flow into the system is expected to evaporate in the subsurface infiltration field. Constituents in the potable water are anticipated to concentrate up to a maximum of 4 times in the evaporative cooler system. Therefore, the condensate water has an expected maximum of 2,500 ppm Total Dissolved Solids. Six months after startup, this permit will be re-evaluated as to whether the injection concentrations and flows warrant a treatment system prior to injection. This permit is issued on a one-time basis for a 5-year time period after which it is anticipated that sewer connection will be available. Monitoring at the facility will be required to ensure that groundwater is not degraded.

The subsurface infiltration system will be located at the CCSD Transportation Facility #1548, 975 Welpman Way, Las Vegas, in the SW ¼ SE ¼ of Section 8, T23S, R61E, MDB&M, Clark County, Nevada.

On the basis of preliminary review of the requirements of the Nevada Revised Statutes, the Nevada Administrative Code, and the Safe Drinking Water Act, and implementing regulations, the Administrator proposes to issue permit #UNEV2005211 as stated above.

Persons wishing to comment upon or object to the proposed determinations by the Administrator regarding permit issuance or to request a hearing pursuant to Nevada Administrative Code, Water Pollution Control, should submit their comments or request in writing by February 25, 2006 either in person or by mail to:

Attn: Becky Linvill  
Division of Environmental Protection  
Bureau of Water Pollution Control  
901 S. Stewart Street, Suite 4001  
Carson City, NV 89701  
([blinvill@ndep.nv.gov](mailto:blinvill@ndep.nv.gov))

All comments or objections received within thirty days of newspaper publication will be considered in the formulation of final determinations regarding the application. If written comments indicate a significant degree of public interest in the proposed permit, the Administrator shall hold a public hearing. A public notice of such hearing will be issued not less than thirty days prior to the hearing date.

The application, draft permit, comments received, and other information are on file and may be copied at the office of the Division of Environmental Protection, or copies may be obtained by writing to the above address or by calling Becky Linvill of the Bureau of Water Pollution Control at (775) 687-9503.

Please bring the foregoing notice to the attention of all persons whom you know would be interested in this matter.
